

Ballpoint  
Pen  
Ink

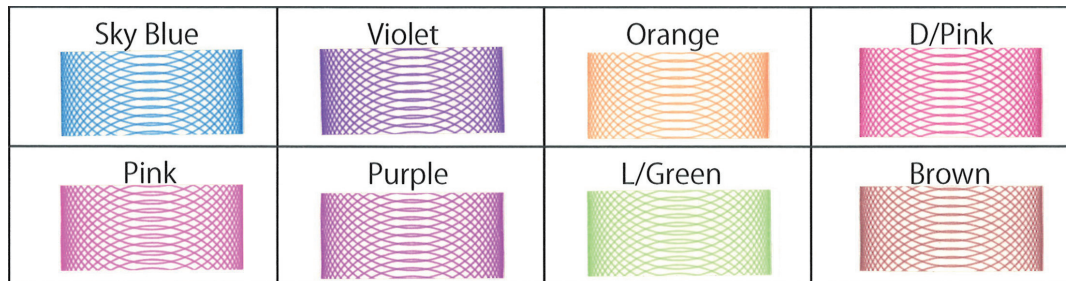

# MACH INK

Best characteristics of oil based ink and smooth writing coexist in this ink

## Basic Colors

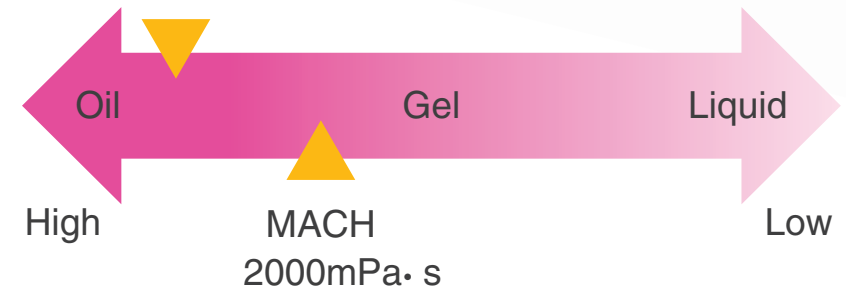

## Fashion Colors

## Ink Viscosity

Ordinary Oil Based Ink  
10000mPa·s

The tip ball rotation is smoother with MACH low viscosity ink, possessing lower writing friction. Compared to standard oil based ballpoint pens, light and smooth writing experience is provided.

# LOW VISCOSITY INK WITH SMOOTH WRITING FEEL

※Information based on company test results. May vary with testing environmental conditions (paper, writing pressure, etc.).
